LOUD, BRITISH, BASS-LED HARD ROCK

BOX OF RULES · BRIGHTON, UK

Work smarter, not harder. That's why **Box Of Rules** only needs one bass guitar to be the entire string section. Big riffs, heavy hooks and perfect tones. Two singles are out now, including a loud rebuild of **Bulls On Parade**, with the debut EP **Bass, Drums, Vocals. Sometimes Theremin** to follow in August 2026.

Box Of Rules is built on transparency, so the same workshop that makes the music gives you the keys to the production standard too: **Bass Better-er**, a plugin made from the band's own session captures, is out now for VST3 and AU. Currently free on boxofrules.com

RECORDS AND TOOLS, SAME DESK

BASS BETTER-ER

One bass DI, split into parallel studio-captured layers and blended back bigger. Built from real Box of Rules sessions, released free in beta and developed in the open, with a Premium version on the way. A rock project that ships the same tools it records with.
